Yes, he is adding draft text (greatly reduced) for all the ICs, so I think late Tuesday or first thing Wednesday morning is likely.

Thanks. Gene had already indicated that it would be at least the end of Tuesday before we see something.

Agreed. The Integral team is focused on getting the revised draft of Section 10 to you as soon as practical (e.g., next few days). I will provide you a status report later today re Section 10. Jim.

Thanks Jim. This is lower priority than Section 10, so don't let it interfere with getting those mods complete. Let me know if you have any further questions.

OK, thank you. I will discuss this with Gene and let you know if we can compile this by December 22. Jim.

Good morning Kristine. Integral is our gatekeeper for all the data so I'm adding Gene to this email chain. Are you looking for a list of all data (sediments, SW, and biota), or just sediments? Thanks, Jim.

Jim – I seem to only have some data reports, but they don't seem to cover all the data collected in rounds 1, 2 & 3. Can you confirm that there were data reports provided for all data and provide a list of those documents? I'd like to have this by 12/22.

Thanks,

Kristine Koch
